A. Abstract VA 1.3
- Q. When studying colors, what are colors called that contain blue?
A. Cool Colors VA 2.1
- Q. What is the term for adding a desirable substance to a food increasing the food value?
A. Fortified THES 5.1
- Q. What began in 1775, when the French Government offered a prize for a new method of preserving foods?
A. Canning THES 5.1
- Q. What does the term linear mean?
A. Consisting of lines VA 2.1
- Q. Where does Tennessee rank in the nation for childhood obesity?
A. Fifth (5th) Highest! THES 9.2
- Q. What is the part of the scene that appears behind the subject in a photograph?
A. Background VA 2.1
- Q. What is the main use of an emery bag on a pin cushion?
A. To keep needles and pins sharp VA 1.1
- Q. In sewing, what is pivoting?
A. Turning a corner VA 2.1
- Q. The color teal is defined as what?
A. Dark greenish blue VA 2.1
- Q. What national organization issues weather watches and warnings?
A. The National Weather Service THES 11.
- Q. Name the only state university in Tennessee named for a former governor?
A. Austin Peay State University LSED
- Q. What is the light proof area used for processing film?
A. Darkroom VA 1.1
- Q. What is a substance that prevents bacterial growth called?
A. Antibiotic THES 9.2

- Q. What harmful substance is in the paint of most houses built before 1960?
A. Lead THES 10.
- Q. A tornado with wind speeds of 300 miles per hour would be considered what class tornado?
A. F-5 THES 11.
- Q. What is the device in a camera that opens and closes causing the film to be exposed forming an image?
A. Shutter VA 1.1
- Q. U. T. was officially named the University of Tennessee in 1879. What was its' name immediately prior to this change?
A. East Tennessee University LSED
- Q. What type of drug produces sleep or stupor while at the same time relieving pain?
A. Narcotics THES 13.
- Q. What Nashville university is located on the grounds of the former home of Adelia Acklen?
(Pronounced ADD-UH-LEE-SH-UH ACK-LYNN)
A. Belmont LSED
- Q. Exercise makes your bones what?
A. Stronger THES 4.1
- Q. A drug or other substance which produces delusions is called a what?
A. Hallucinogen (pronounced HUH-LOOSE-UN-UH-GIN) THES 13.
- Q. What is the term used for when a liquid becomes a soft semi-solid mass?
A. Coagulate THES 5.1
- Q. What mineral helps the thyroid gland to work properly and is usually found in salt?
A. Iodine THES 5.1
- Q. What type painting is the hardest to clean-up?
A. Oil Painting VA 1.2
- Q. What term refers to the brightness or dullness of a color?
A. Intensity VA 2.3
- Q. What university in Tennessee was originally known as Dixie College?
A. Tennessee Tech University LSED
- Q. What is the term for the way a surface feels when touched?
A. Texture VA 2.1
- Q. What is a drug which can only be purchased with a physician's order?
A. Prescription Drugs THES 13.

- Q. Dietary guidelines recommend that persons obtain at least what percent of their daily calories from carbohydrates? THES 5.1
A. 50
- Q. In emergency preparedness, what do we call the circular diagram containing the words: Prepare, Respond, Recover, Mitigate? THES 11.
A. The Disaster Cycle
- Q. How are ingredients on a food label listed by nutritional importance? THES 5.1
A. From most to least
- Q. What are the building blocks of protein? THES 5.1
A. Amino Acids
- Q. As it relates to clothing, why do we use pinking shears? VA 1.1
A. Cutting zig-zag edges on cloth to prevent fraying
- Q. What radar system has greatly improved the forecasting of tornados? THES 11.
A. Doppler
- Q. What is the nutrient of food needed to build and repair body tissues? THES 5.1
A. Protein
- Q. Which school in the University of Tennessee system is located in Southeast Tennessee? LSED
A. The University of Tennessee at Chattanooga
- Q. Sewing items needed to finish a project such as buttons, zippers, thread and snaps are also known as what? VA 1.1
A. Notions
- Q. What Tennessee university is located near Sewanee, Tennessee? LSED
A. The University of the South
- Q. What is the cancer causing radioactive gas that can seep into your home from underground? THES 9.2
A. Radon
- Q. What is the term used to describe two images taken at different times appearing on the same photograph? VA 1.3
A. Double exposure
- Q. Which class of fire occurs in electrical wiring and electronic equipment? THES 10.
A. Class "C" fire
- Q. What does the size of the lens opening of a camera effect? VA 1.1
A. Depth of field in focus
- Q. What is used in sewing to give shape to a garment by rounding flat fabric to fit curves? VA 1.3
A. Darts

- Q. What is the name of the three-legged supporting stand used to hold a camera steady?
A. Tripod VA 1.1
- Q. What is the material called that gives fabric body and shaping?
A. Interfacing VA 2.3
- Q. What 3 pieces of equipment make up the work triangle in the kitchen?
A. Stove, Sink, Refrigerator THES 5.1
- Q. What does the term rancid mean?
A. Offensive smell (It STINKS!) THES 5.1
- Q. What are proteins in food which aid in the maturing of food?
A. Enzymes THES 5.1
- Q. What is the phone number for the Tennessee Poison Control Center?
A. 1-800-222-1222 or 1-423-222-1222 THES 11.
- Q. What is the term for predicting what the weather will do?
A. Forecasting THES 11.
- Q. Why should a person warm up their muscles with stretching exercises?
A. Cold muscles are more prone to injuries THES 4.1
- Q. What is the grain from which flour is made?
A. Wheat THES 5.1
- Q. What is the proper name for deer meat?
A. Venison THES 5.1
- Q. In what town is East Tennessee State University located?
A. Johnson City LSED
- Q. What is the maximum time that left-overs can be left out at room temperature?
A. Two (2) hours THES 5.1
- Q. What is an ingredient that helps make bread tender?
A. Shortening THES 5.1
- Q. By law, a beverage that is called a “fruit juice” must contain at least what percent of natural fruit juices?
A. 10 THES 5.1
- Q. What Tennessee city is the home of UTC?
A. Chattanooga (University of Tennessee at Chattanooga) LSED
- Q. What does the term motif mean?
A. A single design unit which can be repeated VA 2.1

- Q. What is the term for something that cannot be seen through?
A. Opaque VA 2.1
- Q. What state university was at one time University of Tennessee Junior College?
A. University of Tennessee at Martin (would accept simply UT-Martin) LSED
- Q. What natural occurrence kills the most people in the United States?
A. Lightning THES 11.
- Q. In canning, what is the space left at the top of the container called?
A. Head Space THES 5.1
- Q. What is the type of craft where you paint on a wooden surface?
A. Tole Painting VA 1.3
- Q. How often should you have a dental check-up?
A. 2 times per year (every 6 months) THES 2.1
- Q. In food safety, what is the Danger Zone?
A. Temperatures between 40 and 140 degrees Fahrenheit (where bacteria multiply fastest) THES 5.1
- Q. What is a "PFD" as it relates to safety?
A. A Personal Flotation Device THES 10.
- Q. What is the number one state in the United States for SPAM consumption?
A. Hawaii THES 5.1
- Q. What is the term for the outer edges of a flat surface?
A. Shape VA 2.1
- Q. What is the term for getting all of your subject in the photograph?
A. Framing your subject VA 2.3
- Q. What color is defined as a pale or light purple?
A. Lavender or Lilac VA 2.1
- Q. In sewing, what is the guide or directions for making a specific garment called?
A. Pattern VA 2.3
- Q. What is the term used to describe the weaving together of three or more cords, wires or string?
A. Braid VA 1.3
- Q. What is the most preventable cause of death in our society?
A. Smoking THES 13.
- Q. Foods high in soluble fiber can lower what substance in your blood?
A. Cholesterol THES 5.1

- Q. In what town is Austin Peay State University located?
A. Clarksville LSED
- Q. What was the original name of East Tennessee State University?
A. East Tennessee State Normal School LSED
- Q. How many teaspoons of sugar does a typical 12 ounce can of carbonated soft drink contain?
A. 10 THES 5.1
- Q. What nutrient helps keep the body temperature at a normal level?
A. Water THES 5.1
- Q. What is the largest voluntary health organization in the world?
A. American Cancer Society THES 9.2
- Q. What is the safest method to defrost frozen foods?
A. In the refrigerator THES 5.1
- Q. What kind of camera lens can bring your subject closer to you?
A. Telephoto VA 1.1
- Q. What is defined as the influence your contemporaries or friends have upon you?
A. Peer Pressure THES 13.
- Q. What current university was at one time known as Tennessee A & I State Normal College?
A. Tennessee State University LSED
- Q. Which school in the University of Tennessee is located in East Tennessee?
A. The University of Tennessee at Knoxville LSED
- Q. Your body turns extra protein into what?
A. Fat THES 5.1
- Q. What is the term for introducing an undesirable element?
A. Contamination THES 5.1
- Q. What is a list of dishes or foods served at a meal?
A. Menu THES 5.1
- Q. When mowing on slopes with a push mower, in which direction should you mow?
A. Across the slope THES 10.
- Q. Which school in the University of Tennessee system is located in West Tennessee?
A. The University of Tennessee at Martin LSED
- Q. Americans get most of their sodium intake from what ingredient added to foods during processing?
A. Salt THES 5.1

- Q. One gram of fat contains how many calories?
A. 9
THES 5.1
- Q. What is the nutrient needed to prevent anemia?
A. Iron
THES 5.1
- Q. What is a combination of colors that lie next to each other on the color wheel called?
A. Analogous or Related (UH-NAL-UH-GUS)
VA 2.1
- Q. What type drug can be bought without a physician's order?
A. Over-the-Counter Drug
THES 13.
- Q. What type of drug is alcohol?
A. Depressant
THES 13.
- Q. What state university was first named Hall-Moody Institute?
A. University of Tennessee at Martin (would accept simply UT-Martin)
LSED
- Q. What is an unplanned event that usually results in an injury or damage?
A. Accident
THES 10.
- Q. Which type of cancer kills the most people in the United States?
A. Lung Cancer
THES 9.2
- Q. At what time of the day do most lightning deaths occur?
A. Afternoon
THES 11.
- Q. Which state university traces its origins to Blount College founded in 1794?
A. The University of Tennessee
LSED
- Q. What vitamin helps your body utilize calcium better?
A. Vitamin D
THES 5.1
- Q. What nutrient builds bones and teeth?
A. Calcium
THES 5.1
- Q. Which tornado would be more dangerous an F-1 or an F-5?
A. F-5
THES 11.
- Q. What is the term for the removal of water from food?
A. Dehydrated
THES 5.1
- Q. What is the name of an art work made by gluing different things down on a flat surface?
A. Collage
VA 2.3
- Q. What is a chemical compound essential to good nutrition and bone structure?
A. Mineral
THES 5.1

- Q. What is the statement issued when conditions are favorable for a Tornado to occur?
A. Tornado Watch THES 11.
- Q. Oranges, lemons, and tangerines are what kind of fruits?
A. Citrus Fruits THES 5.1
- Q. What is defined as the ratio of lean body weight to fat body weight?
A. Body composition THES 5.1
- Q. What is the woven edge on either side of a piece of fabric?
A. Selvage VA 2.3
- Q. What insect is spreading the West Nile Virus in this country?
A. Mosquito THES 9.2
- Q. What is the leading cause of infant deaths in Tennessee?
A. Low birth weight THES 9.2
- Q. What disease did Jonas Salk eradicate with his vaccine?
A. Polio THES 9.2
- Q. Tusculum College, Tennessee's oldest college, is how much older than the University of Tennessee?
A. One Day! (Tusculum founded on Sept. 9, 1794 and the University of Tennessee on Sept. 10, 1794) LSED
- Q. Concerning interior design, what is the meaning of the word emphasis?
A. Center of interest VA 2.3
- Q. What type of accident causes the most deaths in the United States?
A. Motor Vehicles THES 10.
- Q. Which boat has the right of way...a motor boat or a sail boat?
A. The sail boat THES 10.
- Q. In what town is Tennessee Tech University located?
A. Cookeville LSED
- Q. What can be defined as a style that gains sudden popularity and declines quickly?
A. Fad THES 13.
- Q. What is the name for vitamin B1?
A. Thiamin (pronounced THY UH MUN) THES 5.1
- Q. What were "normal" schools?
A. Schools founded to train teachers LSED
- Q. What is the tool used to study color schemes?
A. The Color Wheel VA 2.1

- Q. Emergency responders pay close attention to NOAA weather radio reports in preparing for emergencies. What does NOAA stand for? THES 11.
A. the National Oceanic and Atmospheric Administration
- Q. What is the approximate size of a lightning bolt? THES 11.
A. Only 3/4 inch
- Q. What food group do dry beans fit into? THES 5.1
A. Meat group
- Q. What is the most common stitch on a sewing machine? VA 2.1
A. Straight Stitch
- Q. What state university in Tennessee changed its name in 1994? LSED
A. University of Memphis from Memphis State University
- Q. What grain is pasta made from? THES 5.1
A. Wheat
- Q. In what direction do Tornados generally travel? THES 11.
A. Northeast
- Q. What state university was first named West Tennessee State Normal School? LSED
A. University of Memphis
- Q. What is the normal resting heart rate (heart beats per minute)? THES 4.1
A. 60 to 90
- Q. Where is the University of Tennessee Space Institute located? LSED
A. Tullahoma
- Q. What is the addictive agent found in Tobacco? THES 13.
A. Nicotine
- Q. What is the standard number for information? THES 11.
A. 411 or 1411
- Q. What is the recommended amount of time for proper handwashing? THES 2.1
A. 20 seconds
- Q. Name the two types of dietary fiber? THES 5.1
A. Soluble and Insoluble
- Q. What is skim milk? THES 5.1
A. Whole milk with the fat or cream removed
- Q. What is the first thing you should do upon arriving on the scene of an accident? THES 11.
A. Secure the scene or make sure the danger is removed or corrected

- Q. What is the term for the main object you want in your photograph?
A. Subject VA 2.3
- Q. What group of diseases is characterized by uncontrolled growth and spread of abnormal cells?
A. Cancer THES 9.2
- Q. What part of the basement would be the safest place to be during a tornado?
A. Southwest corner (The Northeast corner may pile up with debris) THES 11.
- Q. Which class of fire involves flammable liquids, gases, oil and grease?
A. Class "B" fire THES 10.
- Q. What is the term for the passing of nutrients into the blood stream?
A. Absorption THES 5.1
- Q. What single food item contributes the most dietary fat to the American diet?
A. Hamburger THES 5.1
- Q. What is the term for the exceptionally high tides which accompany hurricanes causing much damage?
A. Storm Surge THES 11.
- Q. Panning, F-Stop, and Depth of Field are terms found in which art form?
A. Photography VA 1.2
- Q. What is the type of knitting done with a long hooked needle?
A. Crochet VA 1.2
- Q. What do azalea, iris, and holly have in common?
A. They are common house plants which are poisonous THES 11.
- Q. What type drug speeds up the central nervous system?
A. Stimulant THES 13.
- Q. What should be dialed in case of emergency?
A. 911 THES 11.
- Q. What is the term for something which can be seen through clearly, like glass?
A. Transparent VA 2.1
- Q. What is the name given to an earthquake which follows another earthquake?
A. An Aftershock THES 11.
- Q. What method of cooking comes from the French word meaning "to jump" and is usually done to onions and mushrooms?
A. Saute (pronounced SAW-TAY) THES 5.1
- Q. What is a picture that is woven in cloth and hung on a wall?
A. Tapestry (pronounced TAP-ISS-TREE) VA 1.3

- Q. What is the first responsibility of any baby sitter? THES 10.
A. Safety of the child
- Q. What are colors called that are opposite each other on the color wheel? VA 2.1
A. Complementary or Contrasting
- Q. At what temperature should cold foods be stored? THES 5.1
A. 40° F or colder
- Q. If you add black to a color to make it darker, you are changing the color's what? VA 2.1
A. Shade
- Q. What scale is used to classify a tornado? THES 11.
A. Fujita Scale (pronounced FEW GEE TA)
- Q. What percent of traffic accidents are alcohol related? THES 13.
A. 60 percent
- Q. What are the two readings given in a blood pressure? THES 9.2
A. Systolic (pronounced SISS-TAH-LIC) and Diastolic (pronounced DIE-ISS-TAH-LIC)
- Q. At what temperature should your refrigerator be set? THES 5.1
A. Between 32 degrees and 40 degrees Fahrenheit
- Q. What is the most important tool you have to prevent foodborne illness? THES 2.1
A. Good personal hygiene
- Q. What is the tool with a sharp point and a small blade that is used to remove stitches from fabric? VA 1.1
A. Seam Ripper
- Q. What type of fat is liquid at room temperature? THES 5.1
A. Unsaturated
- Q. How long does it take the sound of thunder to travel a mile? THES 11.
A. 5 seconds
- Q. What is the term for a disease that is transmitted to humans by food? THES 5.1
A. Foodborne Illness
- Q. What is the term for the exposing of a liquid to high temperatures allowing for the destruction of harmful organisms without major chemical changes to the substance? THES 5.1
A. Pasteurization (pronounced PASS-TER-UH-ZAY-SHUN)
- Q. What was the first of the "normal" schools to enroll students? LSED
A. Middle Tennessee Normal School
- Q. What do the letters C P R stand for? THES 10.
A. Cardiopulmonary Resuscitation (pronounced CAR-DEE-O-PULL-MON-AIR-EE REE-SUS-UH-TAY-SHUN)

- Q. What is made by putting many motifs together? VA 2.3
A. Pattern
- Q. At what wind speed does a tropical storm become a hurricane? THES 11.
A. Above 74 mph
- Q. What is the term for the drying out of frozen food that has been improperly packaged? THES 5.1
A. Freezer Burn
- Q. This part of the UT System does not have any undergraduate students but houses the UT School of Medicine and Dentistry? LSED
A. The University of Tennessee at Memphis
- Q. What is defined as a substance that, when put into your body, can alter the way your body works? THES 13.
A. Drugs
- Q. What is the meat from young dairy and beef calves? THES 5.1
A. Veal
- Q. What happened to the University of Tennessee at Nashville? LSED
A. It is now part of Tennessee State University
- Q. Jogging would be considered what type of exercise? THES 4.1
A. Aerobic Exercise
- Q. What is the unit by which food energy is measured? THES 5.1
A. Calorie
- Q. What kind of paint is made of powder mixed with glue and water? VA 1.2
A. Tempera
- Q. What type nutrient in food provides energy to the body? THES 5.1
A. Carbohydrates
- Q. Most fast foods are high in fat and what? THES 5.1
A. Sodium
- Q. What are you required by Tennessee state law to do each time you ride in a car? THES 10.
A. Wear seat belt
- Q. At what temperature should your home freezer be set on? THES 5.1
A. 0 degrees Fahrenheit
- Q. To prevent concussions when cycling, what piece of equipment should you wear? THES 10.
A. Helmet
- Q. When sewing what is worn on the middle finger of your sewing hand to push the needle through the fabric? VA 1.1
A. Thimble

- Q. What is the recommended amount of exercise time a child or teenager should get daily?
A. 60 minutes (revised with 2005 new Food Guide Pyramid) THES 4.1
- Q. What machine has a needle bar, a throat plate, and a bobbin?
A. Sewing machine VA 1.1
- Q. What is the name of a paper or board with openings that let paint or ink through to make a design?
A. Stencil VA 1.1
- Q. What is the photographic term for taking a picture with no flash?
A. Existing light photography VA 2.3
- Q. Carbohydrates provide how many calories per gram.
A. 4 THES 5.1
- Q. What is the name of an object made by hand from your own idea, skill and method?
A. Craft VA 1.3
- Q. What is the statement issued when a Tornado has been spotted?
A. Tornado Warning THES 11.
- Q. What type camera lens allows you to frame more area from right to left?
A. Wide-angle lens VA 1.1
- Q. What state university was at one time known as "T P I"?
A. Tennessee Tech University LSED
- Q. What can be added to fruit to prevent it from browning in the freezer?
A. Ascorbic Acid (pronounced AS-SCORE-BIC) THES 5.1
- Q. What class tornado would have winds of 100 miles per hour?
A. F-1 THES 11.
- Q. What bugs spread Rocky Mountain Spotted Fever and Lyme Disease?
A. Ticks THES 9.2
- Q. What is the method of drawing done without any help from any drawing instruments?
A. Freehand VA 1.3
- Q. What university in Tennessee was originally known as Grant University?
A. UT Chattanooga LSED
- Q. What vitamin is called the "Sunshine" vitamin?
A. Vitamin C (because citrus fruits are a good source of Vitamin C) (also will accept Vitamin D because the body produces Vitamin D when sunlight is absorbed by the skin) THES 5.1
- Q. If you add white to a color, you change the color's what?
A. Tint VA 2.1

- Q. What is the term for the reduction in the size of particles suspended in a liquid by the use of high pressure? THES 5.1
- A. Homogenization (pronounced HUM-AH-GIN-UH-ZAY-SHUN)

- Q. What are rocks which form when sediments are compacted and cemented together? 8.ESS2.3
A. Sedimentary Rocks (SAID-UH-MEN-TARY)
- Q. Gypsum would be classified as what type of rock? 8.ESS2.3
A. Sedimentary Rocks (SAID-UH-MEN-TARY)
- Q. How does igneous rock change into metamorphic rock? 8.ESS2.3
A. Heat and Pressure
- Q. What do you call a material which does not allow electricity to move freely through it? 8.PS2.1
A. An Insulator
- Q. In terms of tides, what can be expected as the Moon gets closer to the earth? 8.ESS1.2
A. The higher the tides
- Q. What can be simply defines as the study of rocks? 8.ESS2.3
A. Geology
- Q. Which types of rocks are formed by the breaking down of other rocks? 8.ESS2.3
A. Sedimentary Rocks (SAID-UH-MEN-TARY)
- Q. In terms of electricity Plastic or rubber would be a good example of what? 8.PS2.1
A. An Insulator
- Q. Any material that attracts iron and material that contains iron is a what? 8.PS2.1
A. Magnet
- Q. What is the term for molten rock beneath the Earth's surface? 8.ESS2.3
A. MAGMA
- Q. What causes a shock, when touching a metal object, or a friend's ear, after walking across carpet? 8.PS2.1
A. Static Electricity
- Q. What would you expect the pH of Orange Juice to be? CHEM1.
A. Lower than 7 (Its acidic)
- Q. What is defined as electricity which gathers in one place? 8.PS2.1
A. Static Electricity
- Q. What is defined as electricity which moves from one place to another? 8.PS2.1
A. Electric Current
- Q. What would you expect the pH of hand soap to be? CHEM1.
A. Higher than 7 (its basic)
- Q. What does the "H" in pH stand for? CHEM1.
A. Hydrogen

- Q. What is the minimum temperature to which a fuel source must be heated for combustion to occur?
A. the Ignition Temperature
- Q. In terms of light a stained glass window would be considered what kind of material?
A. Translucent (Pronounced TRANZ-LOOSE-ENT) 1.PS4.2
- Q. What form of energy is released when food is being digested?
A. Chemical Energy
- Q. At what two moon phases would you expect the tides to be the lowest?
A. During The First or Third Quarter Moon 8.ESS1.2
- Q. Sandstone would be classified as what type of rock?
A. Sedimentary Rocks (SAID-UH-MEN-TARY) 8.ESS2.3
- Q. What do you call a material which allows electricity to move freely through it?
A. A conductor 8.PS2.1
- Q. What is the speed of light?
A. 186,000 miles per second PHYSIC
- Q. Alike poles of a magnet do what?
A. Repel 8.PS2.1
- Q. What color does a base turn litmus paper?
A. Blue CHEM1.
- Q. What is a magnet made of material that keeps its magnetism?
A. Permanent Magnet 8.PS2.1
- Q. What is a measure of the amount of acidity in the soil or water?
A. pH CHEM1.
- Q. What do you call a material which allows electricity to move freely through it?
A. A conductor 8.PS2.1
- Q. What happens to light when it strikes a dull surface like a dark curtain?
A. It is absorbed 1.PS4.2
- Q. Which type of rocks were formed by the hardening of lava or magma?
A. Igneous Rocks 8.ESS2.3
- Q. Granite would be classified as what type of rock?
A. Igneous Rocks (Pronounced IGG-KNEE-US) 8.ESS2.3
- Q. A material that allows no light to pass through it is considered to be what?
A. Opaque (Pronounced O-PAKE) 1.PS4.2

- Q. A physical phenomenon produced by the motion of electric charge resulting in objects being attracted or repelled? 8.PS2.1
A. Magnetism
- Q. Which type of rock was at one time another type of rock? 8.ESS2.3
A. Metamorphic Rock (MET-UH-MORE-FIC)
- Q. When the moon and the sun are lined up what would you expect in terms of tides? 8.ESS1.2
A. Higher Tides
- Q. What are the three layers of the Earth? 8.ESS2.3
A. Core, mantle and crust
- Q. A material that allows some light but not all to pass through it is considered to be what? 1.PS4.2
A. Translucent (Pronounced TRANZ-LOOSE-ENT)
- Q. Unlike poles of a magnet do what? 8.PS2.1
A. Attract
- Q. What would you expect the pH of baking soda to be? CHEM1.
A. Higher than 7 (its basic)
- Q. For an electric current to happen there must be a what? 8.PS2.1
A. A circuit
- Q. Coal would be classified as what type of rock? 8.ESS2.3
A. Sedimentary Rocks (SAID-UH-MEN-TARY)
- Q. What is the term for the regular rise and fall of the ocean's surface influenced by the moon's gravity? 8.ESS1.2
A. Tides
- Q. Tums or Rolaids are household examples of what type substance? CHEM1.
A. Base (if given antacid ask for another word for antacid)
- Q. What is a naturally occurring inorganic solid that has a crystal structure and a chemical composition? 8.ESS2.3
A. A mineral
- Q. When the moon and the sun are 90 degrees apart what would you expect in terms of tides? 8.ESS1.2
A. Lower Tides
- Q. What do you call a material which does not allow electricity to move freely through it? 8.PS2.1
A. An Insulator
- Q. Marble would be classified as what type of rock? 8.ESS2.3
A. Metamorphic Rock (MET-UH-MORE-FIC)

- Q. What physical property would be a mineral's tendency to split along specific plains of weakness to form smooth flat surfaces?
A. Cleavage
- Q. What form of energy is stored in the bonds atoms and molecules?
A. Chemical Energy BIO1
- Q. Basalt would be classified as what type of rock?
A. Igneous Rocks (Pronounced IGG-KNEE-US) 8.ESS2.3
- Q. How does light travel?
A. In waves 2.PS4.2
- Q. If a plant bends in order to get closer to the sun, it is exhibiting what?
A. Tropism (Pronounced TROPE -IZM) BIO1
- Q. X-Ray machines give off what kind of energy?
A. Radiant Energy
- Q. When Ice melts in a glass of water this is an example of what form of energy?
A. Heat Energy PHYSIC
- Q. What is the term for molten rock that reaches the Earth's surface?
A. Lava 8.ESS2.3
- Q. A higher pH makes a substance tend to be more what?
A. Basic or Alkaline CHEM1.
- Q. Which two gases make up the greatest percentage of the atmosphere of the Earth?
A. Oxygen and Nitrogen 7.ESS3.1
- Q. What is the process which forms sedimentary rocks from sediments compressed by the weight of rocks above them?
A. Compaction (Pronounced COME-PACK-SHUN) 8.ESS2.3
- Q. What is defined as the speed of an object in a given direction?
A. Velocity PHYS.PS
- Q. What form of energy can be defined as the level of activity for the molecules in a given object?
A. Heat Energy PHYSIC
- Q. In terms of light a piece of wax paper would be considered what kind of material?
A. Translucent (Pronounced TRANZ-LOOSE-ENT) 1.PS4.2
- Q. What type magnet uses an electric current to produce its magnetic field?
A. Electromagnet 8.PS2.1
- Q. How do sedimentary rocks change into Magma?
A. Melting 8.ESS2.3

- Q. A lower pH makes a substance tend to be more what? CHEM1.
A. Acidic
- Q. What physical property would be a mineral's ratio of mass to volume?
A. Density
- Q. In terms of tides, what can be expected as the Moon gets further from the earth? 8.ESS1.2
A. The lower the tides
- Q. Obsidian would be classified as what type of rock? 8.ESS2.3
A. Igneous Rocks (Pronounced IGG-KNEE-US)
- Q. In terms of electricity Plastic or rubber would be a good example of what? 8.PS2.1
A. An Insulator
- Q. Limestone would be classified as what type of rock? 8.ESS2.3
A. Sedimentary Rocks (SAID-UH-MEN-TARY)
- Q. What are rocks which form when molten rock cools and hardens? 8.ESS2.3
A. Igneous Rocks (Pronounced IGG-KNEE-US)
- Q. What physical property would be a mineral's color in powdered form?
A. Streak
- Q. What is a sudden, rapid shaking of the earth? 8.ESS2.3
A. An Earthquake
- Q. In terms of light what will you find behind an opaque object? 1.PS4.2
A. A shadow
- Q. What is defined as electricity which moves from one place to another? 8.PS2.1
A. Electric Current
- Q. Pumice would be classified as what type of rock? 8.ESS2.3
A. Igneous Rocks (Pronounced IGG-KNEE-US)
- Q. What would you expect the pH of distilled water to be? CHEM1.
A. 7 (It is neutral)
- Q. What color does acid turn litmus paper? CHEM1.
A. Red
- Q. In terms of light a piece of aluminum foil would be considered what kind of material? 1.PS4.2
A. Opaque (Pronounced O-PAKE)
- Q. The process by which light bounces off of a shiny surface is referred to as what? 1.PS4.2
A. Reflection

- Q. At what two moon phases would you expect the tides to be the highest? 8.ESS1.2
A. During Full and New Moon Phases
- Q. What does a litmus test indicate? CHEM1.
A. Amount of acidity in a substance
- Q. What is defined as the rate at which an object covers a certain distance? PHYS.PS
A. Speed
- Q. The process by which light slows down as it passes through a thick substance is referred to as what? 1.PS4.2
A. Refraction (Pronounced RE-FRACK-SHUN)
- Q. The way a straw looks bent in a glass of water is an example of what phenomenon? 1.PS4.2
A. Refraction (Pronounced RE-FRACK-SHUN)
- Q. What physical property would be a mineral's ability to reflect light?
A. Luster
- Q. What is a solution where the solvent is water? CHEM1.
A. an aqueous solution (Pronounced Ack-Que-US)
- Q. What form of energy travels by waves?
A. Radiant Energy
- Q. What three things are necessary for a fire to burn?
A. Fuel, Heat, Oxygen
- Q. What physical property would be a mineral's ability to resist scratching?
A. Hardness
- Q. Shale would be classified as what type of rock? 8.ESS2.3
A. Sedimentary Rocks (SAID-UH-MEN-TARY)
- Q. At what pH would a substance be considered neutral? CHEM1.
A. 7
- Q. What are rocks which form when they are changed by intense heat or pressure? 8.ESS2.3
A. Metamorphic Rock (MET-UH-MORE-FIC)
- Q. What is the range for the pH scale? CHEM1.
A. 0-14
- Q. An acid or base when dissolved in water that then can conduct an electrical current is referred to as what? CHEM1.
A. An Electrolyte
- Q. How does Magma change into igneous rock? 8.ESS2.3
A. Cooling and Crystallizing

- Q. What would you expect the pH of Ammonia to be?
A. Higher than 7 (its basic) CHEM1.
- Q. In terms of light a piece of clear plastic would be considered what kind of material?
A. Transparent 1.PS4.2
- Q. An object with a north and south pole which produces a magnetic field is a what?
A. Magnet 8.PS2.1
- Q. What is defined as electricty which gathers in one place?
A. Static Electricity 8.PS2.1
- Q. What is a solution that is used to keep pH at a constant value?
A. Buffer CHEM1.
- Q. In terms of electricty copper wire would be a good example of what?
A. A conductor 8.PS2.1
- Q. A material that allows light to pass through easily is considered to be what?
A. Transparent 1.PS4.2
- Q. What form of energy is relaesed when wood burns?
A. Chemical Energy
- Q. What is the solid material made of minerals which forms the Earth's crust?
A. Rock 8.ESS2.3
- Q. Salt would be classified as what type of rock?
A. Sedimentary Rocks (SAID-UH-MEN-TARY) 8.ESS2.3
- Q. What does the term "flammable" mean?
A. Burns easily
- Q. What is caused by the release of energy stored in the earth's crust?
A. An Earthquake 8.ESS2.3
- Q. What is a form of energy resulting from the existence of charged particles?
A. Electricty 8.PS2.1

- Q. Name the Tennessee city which was considered the center for the southern abolition movement? 8.66
A. Jonesborough
- Q. The storming of Shy's Hill brought an end to what Civil War Battle? 8.80
A. The Battle of Nashville
- Q. Who was Old Hickory? 8.55
A. Andrew Jackson
- Q. Missionary Ridge was a significant part of what Civil War battle? 8.80
A. The Battle of Chattanooga
- Q. What was the last major Civil War Battle fought in Tennessee? 8.80
A. The Battle of Nashville (December 1964)
- Q. On what river was Fort Henry located? 8.80
A. The Tennessee
- Q. What Tennessee County is named for the state's first governor? 8.39
A. Sevier County
- Q. The 13th US Colored Troops participated in what Tennessee Civil War Battle? 8.78
A. The Battle of Nashville (December 15 and 16, 1864)
- Q. In 1879 the Tennessee General Assembly changed the named of East Tennessee University to what? 8.90
A. The University of Tennessee
- Q. The "Battle Above the Clouds" was fought overlooking what Tennessee city? 8.80
A. Chattanooga
- Q. Who was president during the Nullification Crisis? 8.55
A. Andrew Jackson
- Q. What Tennessean is known as the "Hero of King's Mountain?" 8.25
A. John Sevier
- Q. On what major river system is the city of Chattanooga located? 8.39
A. The Tennessee River
- Q. Who was the principal chief of the Cherokees during the years immediately leading up to the Trail of Tears? 8.57
A. John Ross Chief of the Cherokee
- Q. Who was president when Congress passed the Indian Removal Act of 1830? 8.55
A. Andrew Jackson
- Q. In what battle was Sam Houston severely wounded by an arrow? 8.43
A. The Battle of Horseshoe Bend

- Q. Who was called the "Wizard of the Saddle?" 8.77
A. Nathan Bedford Forrest
- Q. What Tennessee Native American was also known as George Gist? 8.56
A. Sequoyah
- Q. Who commanded the Federal troops at the battle of Shiloh? 8.80
A. U.S. Grant
- Q. What was the newspaper printed to serve the Cherokee people? 8.56
A. The Cherokee Phoenix
- Q. What house is located at 4580 Rachel's Lane? 8.55
A. The Hermitage in Nashville
- Q. What is Tennessee's oldest town? 8.20
A. Jonesborough Established (1778)
- Q. The loss of what Civil War Battle forced the Confederacy to evacuate Nashville in 1862? 8.80
A. Fort Donelson
- Q. What was the period after the Civil War called in Tennessee? 8.90
A. Reconstruction
- Q. What three states meet a short walk from the Cumberland Gap? 8.39
A. Tennessee, Virginia and Kentucky
- Q. What is the name of the trading post located where downtown Chattanooga is today? 8.57
A. Ross's Landing
- Q. Which Tennessee President graduated from the University of North Carolina at the top of his class? 8.61
A. James K. Polk
- Q. What major city in Tennessee was founded on Christmas Day, 1779? 8.26
A. Nashville
- Q. Name the Tennessean who invented the Cherokee alphabet. 8.56
A. Sequoyah (SUH-QWA-YA like the tree)
- Q. What was the name of the long range plan the North had to end the Civil War? 8.80
A. The Anaconda Plan
- Q. On what major river is the city of Memphis located? 8.39
A. The Mississippi River
- Q. The Peach Orchard and the Hornet's Nest are places associated with what Civil War Battle? 8.80
A. The Battle of Shiloh

- Q. What disease almost destroyed Memphis in the 1878? 8.90
A. Yellow Fever
- Q. Which of the Tennessee presidents was the only U.S. President to completely pay off the national debt? 8.55
A. Andrew Jackson
- Q. What separates Middle Tennessee from West Tennessee? 8.39
A. The Tennessee River (Kentucky Lake)
- Q. Which of the five Indian tribes were the last to sign the treaty which started their removal and the trail of tears? 8.57
A. The Cherokee
- Q. What legislation brought about the Trail of Tears? 8.55
A. The Indian Removal Act of 1830
- Q. Of the American first ladies to come from Tennessee, which was the best educated? 8.61
A. Sarah Childress (Polk) (who was college educated)
- Q. What Union Army and Navy victory opened the door to the unopposed invasion of Nashville during the early days of the Civil War? 8.80
A. Fort Donelson
- Q. What British fort, located in present day Monroe County, surrendered to the Cherokee Indians after a year long siege? 8.19
A. Fort Loudoun
- Q. David Glasgow Farragut was born near what major Tennessee city? 8.77
A. Knoxville
- Q. What was engraved on the inside of Sam Houston's ring? 8.59
A. Honor
- Q. What Tennessee Civil War Battle became the first major victory of the war for General U. S. Grant? 8.80
A. Fort Donelson
- Q. Tennessee was originally part of what state? 8.39
A. North Carolina
- Q. The Tennessee governor's election in 1886 had what colorful nickname? 8.90
A. "The War of the Roses"
- Q. Name the Tennessean who has a tree named for him? 8.56
A. Sequoyah (SUH-QWA-YA) The tree is the Giant Sequoia the largest tree in the world
- Q. Which city served the shortest time as Tennessee's capitol city? 8.39
A. Kingston (one day!)

- Q. Where is Sarah Childress Polk wife of James K. Polk buried? 8.61
A. The Tennessee Capitol grounds (with her husband)
- Q. The Fort Loudon massacre occurred during what war in Tennessee? 8.19
A. French and Indian War
- Q. What was the first Territorial capital of the Southwest Territory? 8.39
A. Rocky Mount
- Q. What Civil War General was known as "Old Rosy?" 8.77
A. William Rosecrans Commander of the Army of the Cumberland (ROSE-CRANZ)
- Q. Near what Tennessee river was the Battle of Shiloh fought? 8.80
A. The Tennessee
- Q. What was Tennessee's order of entry to the Union in 1796? 8.39
A. Sixteenth (16th)
- Q. What early Tennessee Congressman introduced a resolution to abolish West Point? 8.55
A. David Crockett
- Q. What Tennessee founding father is a signer of the United States Constitution? 8.39
A. William Blount (He was a delegate at the time representing North Carolina)
- Q. Who served as military governor of Tennessee during the Civil War? 8.80
A. Andrew Johnson
- Q. What was the first black newspaper in Knoxville? 8.90
A. The Knoxville Examiner
- Q. What famous person died on the Natchez Trace? 8.42
A. Meriwether Lewis (Explorer of Lewis and Clark fame)
- Q. The battle of Stones River was fought near what Tennessee city? 8.80
A. Murfreesboro
- Q. What future Chief of the Cherokee Nation served under Jackson at the Battle of Horseshoe Bend? 8.43
A. John Ross
- Q. The presidential yacht used for most of the 20th century was named after what famous Tennessean? 8.56
A. Sequoyah (SUH-QWA-YA like the tree) [USS Sequoia]
- Q. Who commanded the Federal troops at the Battle Horseshoe Bend? 8.43
A. Andrew Jackson
- Q. What two generals opposed each other at the Battle of Nashville? 8.80
A. George Thomas (USA) and John Bell Hood (CSA)

- Q. What was Northern name for the Battle of Shiloh? 8.80
A. Pittsburg Landing
- Q. What Civil War Battle included the "Pickett's Charge of the West?" 8.80
A. The Battle of Franklin
- Q. What was the more familiar name for the Cherokee removal from Tennessee? 8.57
A. The Trail of Tears
- Q. How long did the journey known as the Trail of Tears take? 8.57
A. One and one-half years
- Q. What was the main crop grown at The Hermitage during Andrew Jackson's time? 8.55
A. Cotton
- Q. Who led the overland party of settlers to the area which would become Nashville? 8.26
A. James Robertson
- Q. Name the riverboat which exploded near Memphis in 1865 killing over 1,000 former Union prisoners of war who were on their way home? 8.80
A. Sultana (pronounced SULL-TAN-UH)
- Q. What early Tennessean was known among the Indians as "Chucky Jack?" 8.39
A. John Sevier
- Q. What famous Tennessee home was known by local Indians as "The house with a thousand eyes?" 8.39
A. Blount Mansion (due to the large number of glass windows)
- Q. Which future Cherokee chief served in the War of 1812 under Andrew Jackson? 8.57
A. John Ross
- Q. Who was the only US Representative from Tennessee to vote against the Indian Removal Act? 8.55
A. David Crockett
- Q. The Carnton Mansion served as a makeshift hospital during the aftermath of what battle? 8.80
A. The Battle of Franklin
- Q. The city of Jackson, as well as Jackson County, were named for whom? 8.55
A. President Andrew Jackson
- Q. Who published the Knoxville Examiner? 8.90
A. William Francis Yardley
- Q. Bluff City is the nickname of what Tennessee city? 8.51
A. Memphis
- Q. What Knoxville building served as the SECOND Capitol of the Territory South of the River Ohio? 8.39
A. Blount Mansion

- Q. Contrast the different ways that the North and the South named armies during the Civil War. 8.80
A. The North named their armies after nearest body of water... South named after state or area they operated in.
- Q. Which Tennessee president abolished the National Bank? 8.55
A. Andrew Jackson
- Q. What Tennessean became the first full admiral to serve in the United States Navy? 8.77
A. David Glasgow Farragut
- Q. What was the term used by Andrew Jackson supporters to describe the presidential election of 1824? 8.55
A. The corrupt bargain
- Q. What was the first newspaper in America devoted to the abolition of slaves? 8.66
A. Manumission Intelligencer
- Q. Name the three most prominent Rivers of Tennessee. 8.39
A. Tennessee, Mississippi, and Cumberland
- Q. Who did Lafayette (LA-FEE-ET) come to Tennessee to visit in 1825? 8.55
A. Andrew Jackson
- Q. What was the transaction called when the American government bought West Tennessee? 8.39
A. The Chickasaw Purchase (or Jackson purchase)
- Q. What is the largest city in America named for a person from Tennessee? 8.59
A. Houston, Texas (named for Sam Houston)
- Q. What Tennessee Civil War Battle was centered at the "Carter House?" 8.80
A. The Battle of Franklin
- Q. What major event did Tennessee celebrate in 1996? 8.39
A. The State's Bicentennial
- Q. How did General William Sherman refer to Nathan Bedford Forrest? 8.77
A. "That Devil Forrest"
- Q. What city in Tennessee was described as "where the cotton meets the corn?" 8.72
A. Chattanooga
- Q. What was the name of the Confederate Army that operated in Tennessee during the Civil War? 8.80
A. The Army of Tennessee (State)
- Q. How many of 5 largest Tennessee cities are located along a major river? 8.39
A. All 5
- Q. What part of the Anaconda Plan was related to Tennessee? 8.80
A. The capture of Chattanooga

- Q. What famous nickname did General U.S. Grant receive at the Tennessee Civil War battle of Fort Donelson, that would stay with him throughout the war? 8.80
A. Unconditional Surrender Grant for U.S. Grant
- Q. What milestone did Tennessee reach in 1850? 8.39
A. A population of over 1,000,000
- Q. What did Scott County, Tennessee declare itself during the Civil War? 8.75
A. "The Free State of Scott"
- Q. The Jackson Purchase of 1818 was also known by what name? 8.39
A. The Chickasaw Purchase
- Q. Who was James K. Polk's "First Lady?" 8.61
A. Sarah Childress (Polk)
- Q. What Tennessee battle was at the time the largest fought in the Western Hemisphere? 8.80
A. The Battle of Shiloh
- Q. What Civil War Admiral served in the War of 1812 at the age of 12? 8.77
A. David Glasgow Farragut
- Q. The great-granddaughter of John Ross was the first Native American woman to do what? 8.57
A. Design rockets and missiles (Mary G Ross)
- Q. What river runs from Kingsport to Knoxville? 8.39
A. The Holston River
- Q. The town of Ross's Landing changed its name in 1839 to what? 8.57
A. Chattanooga
- Q. The state of Oklahoma was almost named for what famous Tennessean? 8.56
A. Sequoyah (SUH-QWA-YA like the tree)
- Q. Which Tennessean failed to carry Tennessee when he was elected President of the United States? 8.61
A. James K. Polk
- Q. Where was the original Tennessee Constitution written? 8.39
A. Knoxville in 1796
- Q. Which one of the Tennessee Presidents does not have a Tennessee County named for him? 8.83
A. Andrew Johnson (Johnson County was named for Thomas Johnson in 1836 prior to Andrew Johnson becoming well known in Tennessee)
- Q. What was the name of the treaty which became the legal basis for the Trail of Tears? 8.55
A. The Treaty of New Echota
- Q. What Tennessee county actually seceded from the Confederacy? 8.75
A. Scott County

- Q. In what current state did the Battle of Horseshoe Bend take place? 8.43
A. Alabama
- Q. What was Sequoyah's occupation? 8.56
A. Blacksmith
- Q. What is the longest of the rivers which run through Tennessee? 8.39
A. The Mississippi River
- Q. What is the name of Andrew Jackson's famous home? 8.55
A. The Hermitage
- Q. Who was the first person to be elected President from a state, which was not one of the original 13 colonies? 8.55
A. Andrew Jackson
- Q. How many of 5 largest Tennessee cities are located along a major river? 8.39
A. All 5
- Q. Who was the only US Representative from Tennessee to vote against the Indian Removal Act? 8.59
A. David Crockett
- Q. What was the first county created in West Tennessee? 8.39
A. Hardin County created on November 13, 1819
- Q. Henry not Andrew was the person for which Tennessee's seventh largest city was really named. Name the city. 8.83
A. Johnson City
- Q. What major event changed the minds of many Tennesseans concerning secession? 8.75
A. The firing on Fort Sumter
- Q. After leaving the state during the Civil War, when did Scott County officially become part of Tennessee again? 8.75
A. 1986
- Q. On what river was Fort Donelson located? 8.80
A. The Cumberland
- Q. Who did Tennessee colonists fight during the French and Indian War? 8.19
A. The French and their Indian Allies
- Q. What Tennessee county can claim to be the birthplace of Davy Crockett? 8.59
A. Greene County (in 1786)
- Q. Native Americans attacked Fort Nashborough in 1781. What was that battle called? 8.26
A. Battle of the Bluffs
- Q. Who did the Federal troops fight at the Battle Horseshoe Bend? 8.43
A. The Creek Indians

- Q. What was a hobby of Andrew Jackson's that would be considered illegal today? 8.55
A. Cockfighting (although we will also accept the answers "betting on horse races" and "dueling")
- Q. Who saved Bonnie Kate Sherrill's life when Chickamaugans attacked Fort Henry and later married her? 8.39
A. John Sevier
- Q. Contrast the different ways that the North and the South named battles during the Civil War. 8.80
A. The North named their battles after nearest body of water... South named after nearest town or community.
- Q. What was significant about the Confederate evacuation of Nashville on February 23, 1862? 8.80
A. It was the first Confederate State capital to surrender.
- Q. What treaty ended the War of 1812? 8.43
A. The Treaty of Ghent (GENT Hard G)
- Q. This city wasn't the first, the last, or the shortest length state capitol city in Tennessee, but it was the official one from 1818 until 1826. Name the city. 8.39
A. Murfreesboro
- Q. Which two Tennessee presidents also served the state as Governor? 8.61
A. Andrew Johnson and James K. Polk
- Q. What two rivers converge to form the Tennessee River? 8.39
A. The Holston and The French Broad Rivers
- Q. When Nashville was first settled it was part of what county? 8.26
A. Washington County
- Q. Nashville was named as Tennessee's permanent state capitol in what year? 8.39
A. 1843
