A. Judicial
- Q. Which part of Congress is referred to sometimes as the 'Lower Chamber?' 4.42
A. The US House of Representatives
- Q. Confirming cabinet members and supreme court nominees are ways that the Senate "checks and balances" the power of what other branch of government? 4.42
A. The Executive Branch
- Q. Freedom of Religion can be found in what amendment? 4.42
A. 1st Amendment
- Q. What is the approximate size, in population, of a US Congressional District? 4.42
A. 700,000 people
- Q. What is the term used to describe the process of how seats are distributed among states in the US House of Representatives? 4.42
A. Apportion or Apportionment (UH-PORE-SHUN or UH-PORE-SHUN-MUNT)

- | | |
|--|------|
| Q. Which House of Congress includes Territories and the District of Columbia, but in a non-voting capacity? | 4.42 |
| A. The US House of Representatives | |
|
Q. Which state has the largest number of US Representatives? | 4.42 |
| A. California (53) | |
|
Q. What is the fewest number of US Representatives that any state has in Congress? | 4.42 |
| A. 1 (Seven states just have 1) | |
|
Q. How many electoral votes does it take to be elected President of the United States? | 4.42 |
| A. 270 (as of 2008) | |
|
Q. Who presides over the US House of Representatives? | 4.42 |
| A. The Speaker of the House | |
|
Q. What does the word Posterity (PAHS-STAIR-UH-TEE) in the Preamble mean? | 4.42 |
| A. future generations of people | |
|
Q. How do you determine a state's electoral votes? | 4.42 |
| A. By adding the number of US Representatives and Senators. | |
|
Q. What do you call a group of citizens called together to hear a legal case? | 4.42 |
| A. Jury | |

- Q. What part of the basement would be the safest place to be during a tornado? THES 11
A. Southwest corner (The Northeast corner may pile up with debris)
- Q. When mowing on slopes with a push mower, in which direction should you mow? THES 10
A. Across the slope
- Q. Which tornado would be more dangerous an F-1 or an F-5? THES 11
A. F-5
- Q. What should be dialed in case of emergency? THES 11
A. 911
- Q. What is the name given to an earthquake which follows another earthquake? THES 11
A. An Aftershock
- Q. What do azalea, iris, and holly have in common? THES 11
A. They are common house plants which are poisonous
- Q. What class tornado would have winds of 100 miles per hour? THES 11
A. F-1
- Q. What is the term for the exceptionally high tides which accompany hurricanes causing much damage? THES 11
A. Storm Surge
- Q. A tornado with wind speeds of 300 miles per hour would be considered what class tornado? THES 11
A. F-5
- Q. Where does Tennessee rank in the nation for childhood obesity? THES 9.
A. Fifth (5th) Highest!
- Q. Your body turns extra protein into what? THES 5.
A. Fat
- Q. Most fast foods are high in fat and what? THES 5.
A. Sodium
- Q. Americans get most of their sodium intake from what ingredient added to foods during processing? THES 5.
A. Salt
- Q. What is the term for the passing of nutrients into the blood stream? THES 5.
A. Absorption
- Q. What is defined as the ratio of lean body weight to fat body weight? THES 5.
A. Body composition
- Q. What is the acceptable macronutrient distribution range for carbohydrates for adults? THES 5.
A. 45–65 percent of daily calories

- Q. What are the building blocks of protein? THES 5.
A. Amino Acids
- Q. How many teaspoons of sugar does a typical 12 ounce can of carbonated soft drink contain? THES 5.
A. 10
- Q. What nutrient helps keep the body temperature at a normal level? THES 5.
A. Water
- Q. At what temperature should your refrigerator be set? THES 5.
A. Between 32 degrees and 40 degrees Fahrenheit
- Q. What group of diseases is characterized by uncontrolled growth and spread of abnormal cells? THES 9.
A. Cancer
- Q. What mineral helps the thyroid gland to work properly and is usually found in salt? THES 5.
A. Iodine
- Q. Which type of cancer kills the most people in the United States? THES 9.
A. Lung Cancer
- Q. What is the largest voluntary health organization in the world? THES 9.
A. American Cancer Society
- Q. What disease did Jonas Salk eradicate with his vaccine? THES 9.
A. Polio
- Q. What is the cancer causing radioactive gas that can seep into your home from underground? THES 9.
A. Radon
- Q. What bugs spread Rocky Mountain Spotted Fever and Lyme Disease? THES 9.
A. Ticks
- Q. What insect is spreading the West Nile Virus in this country? THES 9.
A. Mosquito
- Q. What is a substance that prevents bacterial growth called? THES 9.
A. Antibiotic
- Q. What type camera lens allows you to frame more area from right to left? VA 1.1
A. Wide-angle lens
- Q. What is the main use of an emery bag on a pin cushion? VA 1.1
A. To keep needles and pins sharp
- Q. When sewing what is worn on the middle finger of your sewing hand to push the needle through the fabric? VA 1.1
A. Thimble

- Q. What is the term for introducing an undesirable element? THES 5.
A. Contamination
- Q. What is the term for the reduction in the size of particles suspended in a liquid by the use of high pressure? THES 5.
A. Homogenization (pronounced HUM-AH-GIN-UH-ZAY-SHUN)
- Q. One gram of fat contains how many calories? THES 5.
A. 9
- Q. What type of fat is liquid at room temperature? THES 5.
A. Unsaturated
- Q. What single food item contributes the most dietary fat to the American diet? THES 5.
A. Hamburger
- Q. Name the two types of dietary fiber? THES 5.
A. Soluble and Insoluble
- Q. What is the term for the drying out of frozen food that has been improperly packaged? THES 5.
A. Freezer Burn
- Q. What vitamin is called the “Sunshine” vitamin? THES 5.
A. Vitamin C (because citrus fruits are a good source of Vitamin C) (also will accept Vitamin D because the body produces Vitamin D when sunlight is absorbed by the skin)
- Q. Carbohydrates provide how many calories per gram. THES 5.
A. 4
- Q. What is the number one state in the United States for SPAM consumption? THES 5.
A. Hawaii
- Q. In canning, what is the space left at the top of the container called? THES 5.
A. Head Space
- Q. At what temperature should cold foods be stored? THES 5.
A. 40° F or colder
- Q. Foods high in soluble fiber can lower what substance in your blood? THES 5.
A. Cholesterol
- Q. What can be added to fruit to prevent it from browning in the freezer? THES 5.
A. Ascorbic Acid (pronounced AS-SCORE-BIC)
- Q. What vitamin helps your body utilize calcium better? THES 5.
A. Vitamin D
- Q. How are ingredients on a food label listed by nutritional importance? THES 5.
A. From most to least

- Q. What are proteins in food which aid in the maturing of food? THES 5.
A. Enzymes
- Q. What is the name for vitamin B1? THES 5.
A. Thiamin (pronounced THY UH MUN)
- Q. What is the term for the exposing of a liquid to high temperatures allowing for the destruction of harmful organisms without major chemical changes to the substance? THES 5.
A. Pasteurization (pronounced PASS-TER-UH-ZAY-SHUN)
- Q. What is the maximum time that left-overs can be left out at room temperature? THES 5.
A. Two (2) hours
- Q. What is the safest method to defrost frozen foods? THES 5.
A. In the refrigerator
- Q. What is the term for a disease that is transmitted to humans by food? THES 5.
A. Foodborne Illness
- Q. In food safety, what is the Danger Zone? THES 5.
A. Temperatures between 40 and 140 degrees Fahrenheit (where bacteria multiply fastest)
- Q. What is a chemical compound essential to good nutrition and bone structure? THES 5.
A. Mineral
- Q. What kind of camera lens can bring your subject closer to you? VA 1.1
A. Telephoto
- Q. By law, a beverage that is called a "fruit juice" must contain at least what percent of natural fruit juices? THES 5.
A. 10
- Q. What is the term for getting all of your subject in the photograph? VA 2.3
A. Framing your subject
- Q. What is the name of the three-legged supporting stand used to hold a camera steady? VA 1.1
A. Tripod
- Q. If you add black to a color to make it darker, you are changing the color's what? VA 2.1
A. Shade
- Q. The color teal is defined as what? VA 2.1
A. Dark greenish blue
- Q. What is the term for the outer edges of a flat surface? VA 2.1
A. Shape
- Q. What does the term linear mean? VA 2.1
A. Consisting of lines

- | | |
|--|--------|
| Q. What is the tool used to study color schemes? | VA 2.1 |
| A. The Color Wheel | |
| Q. What is the most common stitch on a sewing machine? | VA 2.1 |
| A. Straight Stitch | |
| Q. In sewing, what is pivoting? | VA 2.1 |
| A. Turning a corner | |
| Q. When studying colors, what are colors called that contain blue? | VA 2.1 |
| A. Cool Colors | |
| Q. What is a combination of colors that lie next to each other on the color wheel called? | VA 2.1 |
| A. Analogous or Related (UH-NAL-UH-GUS) | |
| Q. If you add white to a color, you change the color's what? | VA 2.1 |
| A. Tint | |
| Q. What does the term motif mean? | VA 2.1 |
| A. A single design unit which can be repeated | |
| Q. What is the term for something that cannot be seen through? | VA 2.1 |
| A. Opaque | |
| Q. What is the term for the main object you want in your photograph? | VA 2.3 |
| A. Subject | |
| Q. What is the photographic term for taking a picture with no flash? | VA 2.3 |
| A. Existing light photography | |
| Q. What is the woven edge on either side of a piece of fabric? | VA 2.3 |
| A. Selvage | |
| Q. In sewing, what is the guide or directions for making a specific garment called? | VA 2.3 |
| A. Pattern | |
| Q. What term refers to the brightness or dullness of a color? | VA 2.3 |
| A. Intensity | |
| Q. What is the name of an art work made by gluing different things down on a flat surface? | VA 2.3 |
| A. Collage | |
| Q. What is made by putting many motifs together? | VA 2.3 |
| A. Pattern | |
| Q. Concerning interior design, what is the meaning of the word emphasis? | VA 2.3 |
| A. Center of interest | |

- Q. What is the material called that gives fabric body and shaping?
A. Interfacing
VA 2.3
- Q. What state university was first named Hall-Moody Institute?
A. University of Tennessee at Martin (would accept simply UT-Martin)
LSED
- Q. What are colors called that are opposite each other on the color wheel?
A. Complementary or Contrasting
VA 2.1
- Q. What is the term used to describe the weaving together of three or more cords, wires or string?
A. Braid
VA 1.3
- Q. What is the leading cause of infant deaths in Tennessee?
A. Low birth weight
THES 9.
- Q. What is the light proof area used for processing film?
A. Darkroom
VA 1.1
- Q. What is the tool with a sharp point and a small blade that is used to remove stitches from fabric?
A. Seam Ripper
VA 1.1
- Q. What is the device in a camera that opens and closes causing the film to be exposed forming an image?
A. Shutter
VA 1.1
- Q. What is the name of a paper or board with openings that let paint or ink through to make a design?
A. Stencil
VA 1.1
- Q. As it relates to clothing, why do we use pinking shears?
A. Cutting zig-zag edges on cloth to prevent fraying
VA 1.1
- Q. Sewing items needed to finish a project such as buttons, zippers, thread and snaps are also known as what?
A. Notions
VA 1.1
- Q. What does the size of the lens opening of a camera effect?
A. Depth of field in focus
VA 1.1
- Q. What is the type of knitting done with a long hooked needle?
A. Crochet
VA 1.2
- Q. What kind of paint is made of powder mixed with glue and water?
A. Tempera
VA 1.2
- Q. What color is defined as a pale or light purple?
A. Lavender or Lilac
VA 2.1
- Q. Panning, F-Stop, and Depth of Field are terms found in which art form?
A. Photography
VA 1.2

- | | |
|--|---------|
| Q. What machine has a needle bar, a throat plate, and a bobbin? | VA 1.1 |
| A. Sewing machine | |
| Q. What is the name of an object made by hand from your own idea, skill and method? | VA 1.3 |
| A. Craft | |
| Q. What is the method of drawing done without any help from any drawing instruments? | VA 1.3 |
| A. Freehand | |
| Q. What is the type of craft where you paint on a wooden surface? | VA 1.3 |
| A. Tole Painting | |
| Q. What is the term used to describe two images taken at different times appearing on the same photograph? | VA 1.3 |
| A. Double exposure | |
| Q. What is used in sewing to give shape to a garment by rounding flat fabric to fit curves? | VA 1.3 |
| A. Darts | |
| Q. What is a picture that is woven in cloth and hung on a wall? | VA 1.3 |
| A. Tapestry (pronounced TAP-ISS-TREE) | |
| Q. Which Tennessee county has the smallest population? | VA 1.3 |
| A. Pickett County | |
| Q. What is the part of the scene that appears behind the subject in a photograph? | VA 2.1 |
| A. Background | |
| Q. What is the term for the way a surface feels when touched? | VA 2.1 |
| A. Texture | |
| Q. What is the term for something which can be seen through clearly, like glass? | VA 2.1 |
| A. Transparent | |
| Q. What type of painting is the hardest to clean-up? | VA 1.2 |
| A. Oil Painting | |
| Q. To prevent concussions when cycling, what piece of equipment should you wear? | THES 10 |
| A. Helmet | |
| Q. At what time of the day do most lightning deaths occur? | THES 11 |
| A. Afternoon | |
| Q. Where is the University of Tennessee Space Institute located? | LSED |
| A. Tullahoma | |
| Q. What type of accident causes the most deaths in the United States? | THES 10 |
| A. Motor Vehicles | |

- Q. What is the first responsibility of any baby sitter? THES 10
A. Safety of the child
- Q. What harmful substance is in the paint of most houses built before 1960? THES 10
A. Lead
- Q. What is an unplanned event that usually results in an injury or damage? THES 10
A. Accident
- Q. What are you required by Tennessee state law to do each time you ride in a car? THES 10
A. Wear seat belt
- Q. Which class of fire involves flammable liquids, gases, oil and grease? THES 10
A. Class "B" fire
- Q. Which class of fire involves wood, cloth, and paper? THES 10
A. Class "A" fire
- Q. Which class of fire occurs in electrical wiring and electronic equipment? THES 10
A. Class "C" fire
- Q. In what town is Austin Peay State University located? LSED
A. Clarksville
- Q. What do the letters C P R stand for? THES 10
A. Cardiopulmonary Resuscitation (pronounced CAR-DEE-O-PULL-MON-AIR-EE REE-SUS-UH-TAY-SHUN)
- Q. What university in Tennessee was originally known as Grant University? LSED
A. UT Chattanooga
- Q. Under normal navigation rules, when a power-driven vessel and a sailing vessel are approaching with risk of collision, which vessel generally must give way? THES 10
A. The power-driven vessel
- Q. What is the phone number for the Tennessee Poison Control Center? THES 11
A. 1-800-222-1222 or 1-423-222-1222
- Q. In what direction do Tornados generally travel? THES 11
A. Northeast
- Q. In emergency preparedness, what do we call the circular diagram containing the words: Prepare, Respond, Recover, Mitigate? THES 11
A. The Disaster Cycle
- Q. What is the statement issued when conditions are favorable for a Tornado to occur? THES 11
A. Tornado Watch
- Q. What is the statement issued when a Tornado has been spotted? THES 11
A. Tornado Warning

- Q. Which weather-related hazard causes the most deaths in the United States?
A. Extreme heat
THES 11
- Q. What is the term for predicting what the weather will do?
A. Forecasting
THES 11
- Q. Emergency responders pay close attention to NOAA weather radio reports in preparing for emergencies. What does NOAA stand for?
A. the National Oceanic and Atmospheric Administration
THES 11
- Q. What is the standard number for information?
A. 411 or 1411
THES 11
- Q. What is a "PFD" as it relates to safety?
A. A Personal Flotation Device
THES 10
- Q. What university in Tennessee was originally known as Dixie College?
A. Tennessee Tech University
LSED
- Q. What state university was at one time known as "T P I"?
A. Tennessee Tech University
LSED
- Q. What current university was at one time known as Tennessee A & I State Normal College?
A. Tennessee State University
LSED
- Q. What state university was first named West Tennessee State Normal School?
A. University of Memphis
LSED
- Q. What state university was at one time University of Tennessee Junior College?
A. University of Tennessee at Martin (would accept simply UT-Martin)
LSED
- Q. What was the original name of East Tennessee State University?
A. East Tennessee State Normal School
LSED
- Q. In what town is Tennessee Tech University located?
A. Cookeville
LSED
- Q. In what town is Middle Tennessee State University located?
A. Murfreesboro
LSED
- Q. What are the two readings given in a blood pressure?
A. Systolic (pronounced SISS-TAH-LIC) and Diastolic (pronounced DIE-ISS-TAH-LIC)
THES 9.
- Q. This part of the UT System does not have any undergraduate students but houses the UT School of Medicine and Dentistry?
A. The University of Tennessee at Memphis
LSED
- Q. What began in 1775, when the French Government offered a prize for a new method of preserving foods?
A. Canning
THES 5.

- Q. Name the only state university in Tennessee named for a former governor? LSED
A. Austin Peay State University
- Q. Which state university traces its origins to Blount College founded in 1794? LSED
A. The University of Tennessee
- Q. U. T. was officially named the University of Tennessee in 1879. What was its' name immediately prior to this change? LSED
A. East Tennessee University
- Q. Tusculum College, Tennessee's oldest college, is how much older than the University of Tennessee? LSED
A. One Day! (Tusculum founded on Sept. 9, 1794 and the University of Tennessee on Sept. 10, 1794)
- Q. What Tennessee university is located near Sewanee, Tennessee? LSED
A. The University of the South
- Q. Which school in the University of Tennessee system is located in West Tennessee? LSED
A. The University of Tennessee at Martin
- Q. What were "normal" schools? LSED
A. Schools founded to train teachers
- Q. What happened to the University of Tennessee at Nashville? LSED
A. It is now part of Tennessee State University
- Q. What state university in Tennessee changed its name in 1994? LSED
A. University of Memphis from Memphis State University
- Q. What was the first of the "normal" schools to enroll students? LSED
A. Middle Tennessee Normal School
- Q. Which school in the University of Tennessee system is located in Southeast Tennessee? LSED
A. The University of Tennessee at Chattanooga
- Q. Which school in the University of Tennessee system is located in East Tennessee? LSED
A. The University of Tennessee at Knoxville
- Q. In what town is East Tennessee State University located? LSED
A. Johnson City
- Q. What Nashville university is located on the grounds of the former home of Adelia Acklen? LSED
(Pronounced ADD-UH-LEE-SH-UH ACK-LYNN)
A. Belmont
- Q. What is the unit by which food energy is measured? THES 5.
A. Calorie

- Q. What is the normal resting heart rate (heart beats per minute)? THES 4.
A. 60 to 90
- Q. Why should a person warm up their muscles with stretching exercises? THES 4.
A. Cold muscles are more prone to injuries
- Q. Oranges, lemons, and tangerines are what kind of fruits? THES 5.
A. Citrus Fruits
- Q. What food group do dry beans fit into? THES 5.
A. Meat group
- Q. What is an ingredient that helps make bread tender? THES 5.
A. Shortening
- Q. What is skim milk? THES 5.
A. Whole milk with the fat or cream removed
- Q. What is a list of dishes or foods served at a meal? THES 5.
A. Menu
- Q. What type nutrient in food provides energy to the body? THES 5.
A. Carbohydrates
- Q. What is the term for adding a desirable substance to a food increasing the food value? THES 5.
A. Fortified
- Q. What nutrient builds bones and teeth? THES 5.
A. Calcium
- Q. Jogging would be considered what type of exercise? THES 4.
A. Aerobic Exercise
- Q. What grain is pasta made from? THES 5.
A. Wheat
- Q. What method of cooking comes from the French word meaning "to jump" and is usually done to onions and mushrooms? THES 5.
A. Saute (pronounced SAW-TAY)
- Q. What is the nutrient needed to prevent anemia? THES 5.
A. Iron
- Q. What is the term for the removal of water from food? THES 5.
A. Dehydrated
- Q. What does the term rancid mean? THES 5.
A. Offensive smell (It STINKS!)

- Q. What 3 pieces of equipment make up the work triangle in the kitchen? THES 5.
A. Stove, Sink, Refrigerator
- Q. At what temperature should your home freezer be set on? THES 5.
A. 0 degrees Fahrenheit
- Q. What is the proper name for deer meat? THES 5.
A. Venison
- Q. What is the meat from young dairy and beef calves? THES 5.
A. Veal
- Q. What is the nutrient of food needed to build and repair body tissues? THES 5.
A. Protein
- Q. At what wind speed does a tropical storm become a hurricane? THES 11
A. Above 74 mph
- Q. What Tennessee city is the home of UTC? LSED
A. Chattanooga (University of Tennessee at Chattanooga)
- Q. What is the grain from which flour is made? THES 5.
A. Wheat
- Q. What is the approximate size of a lightning bolt? THES 11
A. Only 3/4 inch
- Q. What is the first thing you should do upon arriving on the scene of an accident? THES 11
A. Secure the scene or make sure the danger is removed or corrected
- Q. What national organization issues weather watches and warnings? THES 11
A. The National Weather Service
- Q. What is the term used for when a liquid becomes a soft semi-solid mass? THES 5.
A. Coagulate
- Q. What is the recommended amount of exercise time a child or teenager should get daily? THES 4.
A. 60 minutes (revised with 2005 new Food Guide Pyramid)
- Q. What radar system has greatly improved the forecasting of tornados? THES 11
A. Doppler
- Q. How long does it take the sound of thunder to travel a mile? THES 11
A. 5 seconds
- Q. What scale is used to classify a tornado? THES 11
A. Fujita Scale (pronounced FEW GEE TA)

- Q. What is the addictive agent found in Tobacco? THES 13
A. Nicotine
- Q. What type of drug produces sleep or stupor while at the same time relieving pain? THES 13
A. Narcotics
- Q. What is the most preventable cause of death in our society? THES 13
A. Smoking
- Q. What is defined as a substance that, when put into your body, can alter the way your body works? THES 13
A. Drugs
- Q. What is defined as the influence your contemporaries or friends have upon you? THES 13
A. Peer Pressure
- Q. What is the recommended amount of time for proper handwashing? THES 2.
A. 20 seconds
- Q. What type of drug is alcohol? THES 13
A. Depressant
- Q. What is the most important tool you have to prevent foodborne illness? THES 2.
A. Good personal hygiene
- Q. What can be defined as a style that gains sudden popularity and declines quickly? THES 13
A. Fad
- Q. What type drug speeds up the central nervous system? THES 13
A. Stimulant
- Q. How often should you have a dental check-up? THES 2.
A. 2 times per year (every 6 months)
- Q. A drug or other substance which produces delusions is called a what? THES 13
A. Hallucinogen (pronounced HUH-LOOSE-UN-UH-GIN)
- Q. Exercise makes your bones what? THES 4.
A. Stronger
- Q. What type drug can be bought without a physician's order? THES 13
A. Over-the-Counter Drug
- Q. What percent of traffic accidents are alcohol related? THES 13
A. 60 percent
- Q. What is a drug which can only be purchased with a physician's order? THES 13
A. Prescription Drugs

- Q. Where would you find the boiling point of water to be lower than normal? 6.ESS2.5
A. At higher elevations or altitudes
- Q. Which type of natural resource can be used repeatedly and is replaced naturally? 6.ESS3.1
A. Renewable
- Q. What atmospheric pressure are you experiencing during a rainstorm? 6.ESS2.5
A. Low Pressure
- Q. What atmospheric pressure are you experiencing during a bright sunny day? 6.ESS2.5
A. High Pressure
- Q. What instrument is used to determine the amount of humidity present in the atmosphere? 6.ESS2.5
A. Psychrometer or Hygrometer (Pronounced SI-Krom-uh-ter and HI- GROM-UH-TER)
- Q. What is the weather termed for the amount of water vapor found in the atmosphere? 6.ESS2.5
A. Humidity
- Q. How is relative humidity expressed? 6.ESS2.5
A. Percentage
- Q. Where would you find the boiling point of water to be higher than normal? 6.ESS2.5
A. at places below sea-level
- Q. What instrument is used to measure the speed of the wind? 6.ESS2.5
A. Anemometer (Pronounced ANN-O-MOM-UH-TER)
- Q. What simple type of anemometer was used on the Phoenix Mars Lander? 6.ESS2.5
A. Ping Pong Ball Anemometer
- Q. Fresh water is an example of what type of natural resource? 6.ESS3.1
A. Renewable
- Q. Which type of natural resource would take longer to replenish? 6.ESS3.1
A. Nonrenewable
- Q. Coal is an example of what type of natural resource? 6.ESS3.1
A. Nonrenewable
- Q. Petroleum is an example of what type of natural resource? 6.ESS3.1
A. Nonrenewable
- Q. Natural Gas is an example of what type of natural resource? 6.ESS3.1
A. Nonrenewable
- Q. What is defined as the force exerted on the atmosphere at any given point? 6.ESS2.5
A. Atmospheric or Barometric Pressure (Pronounced BEAR-O-MET-TRICK)

- Q. Solar Energy is an example of what type of natural resource? 6.ESS3.1
A. Renewable
- Q. Trees are an example of what type of natural resource? 6.ESS3.1
A. Renewable
- Q. Which type of natural resource can be replenished by human management? 6.ESS3.1
A. Renewable
- Q. What is defined as the temperature to which the air would have to be cooled to condense as moisture on surfaces such as plant leaves? 6.ESS2.5
A. Dew Point
- Q. The California Current moves in what general direction along the western coast of North America? 6.ESS2.3
A. South
- Q. What state of matter assumes the volume of the part of the container which it occupies? 5.PS1.1
A. A Liquid
- Q. What state of matter assumes the volume of its container? 5.PS1.1
A. A Gas
- Q. What is a simple definition for Abiotic? 6.LS2.4
A. Non-Living
- Q. Which type of natural resource can only be conserved by human management? 6.ESS3.1
A. Nonrenewable
- Q. What states of matter are not easily compressed? 5.PS1.1
A. Solid and Liquid
- Q. What state of matter has a fixed volume and shape? 5.PS1.1
A. Solid
- Q. What are stream-like movements of water in the ocean called? 6.ESS2.1
A. currents
- Q. Major ocean currents move in what direction in the northern hemisphere? 6.ESS2.3
A. Clockwise
- Q. Why is the Gulf Stream warm? 6.ESS2.3
A. Because it is bringing in warmer water from the South
- Q. The Gulf Stream moves in what general direction along the Atlantic coast? 6.ESS2.3
A. North
- Q. What instrument is used to determine the atmospheric pressure? 6.ESS2.5
A. Barometer (pronounced BA-ROM-UH-TER)

- Q. What major ocean current effects the weather in the Atlantic particularly along the eastern North American coast? 6.ESS2.3
A. The Gulf Stream
- Q. Why is the California Current cold? 6.ESS2.3
A. Because it is bringing in cooler water from the North
- Q. Which side of a mountain generally gets more rain? 6.ESS2.3
A. Western Slope
- Q. Which side of a mountain generally gets less rain? 6.ESS2.3
A. Eastern Slope
- Q. What major ocean current effects the weather in the Pacific particularly along the western North American coast? 6.ESS2.3
A. The California Curret
- Q. What instrument is used to determine the pressure of the atmosphere? 6.ESS2.5
A. Barometer (pronounced BA-ROM-UH-TER)
- Q. What instrument is used to determine the temperature of water? 6.ESS2.5
A. Thermometer
- Q. What instrument is used to determine the air temperature? 6.ESS2.5
A. Thermometer
- Q. What is the chemical used in a liguid-in-glass thermomter to measure temperature? 6.ESS2.5
A. Mercury
- Q. Major ocean currents move in what direction in the southern hemisphere? 6.ESS2.3
A. Counter Clockwise
- Q. What is term for energy traveling through space or matter in the form of energy waves or particles? 6.PS3.4
A. Radiation (Pronounced RADE-E-A-SHUN)
- Q. In terms of a biome, water, air and soil would be claasified as what type of factor? 6.LS2.4
A. Abiotic (Pronounced A-BY-OTT-TICK)
- Q. In terms of a biome, animals, plants, and fungi would be claasified as what type of factor? 6.LS2.4
A. Biotic (Pronounced BY-OTT-TICK)
- Q. What is a simple definition for Biotic? 6.LS2.4
A. Something Living
- Q. Which type of Potential Energy depends upon its mass? 6.PS3.10
A. Graviational Potential Energy
- Q. Which type of Potential Energy occurs when objects are compressed or stretched? 6.PS3.10
A. Elastic Potential Energy

- Q. Which type of Potential Energy is determined by its electrical charge? 6.PS3.10
A. Electric Potential Energy
- Q. What is the movement of heat through a material without any perceptible motion of the material? 6.PS3.4
A. Conduction (CON-DUCK-SHUN)
- Q. The heat from the cocoa making the cup hot in your hands is a good example of what? 6.PS3.4
A. Conduction (CON-DUCK-SHUN)
- Q. Lake Michigan would be an example of what type of Biome? 6.LS2.4
A. Aquatic
- Q. Hot water in a pot rising as cold water sinks causing a circular current is a good example of what? 6.PS3.4
A. Convection (CON-VECK-SHUN)
- Q. What are two major types of biomes? 6.LS2.4
A. Terrestrial and Aquatic
- Q. What is another term for moon? 607.6.3
A. Satellite
- Q. What is the term for an object that orbits around a planet? 607.6.3
A. A Satellite or Moon
- Q. What is the term for a gravity effected trajectory of an objected around a planet? 607.6.3
A. Orbit
- Q. One Astronomic Unit is defined as the average distance between what two places? 607.6.3
A. The Earth and the Sun
- Q. What is defined as air in motion? 607.8.2
A. Wind
- Q. Which two gasses make up the greatest percentage of the atmosphere of the Earth? 7.ESS3.1
A. Oxygen and Nitrogen
- Q. What state of matter would you have if all of the atoms are tightly packed in a regular pattern? 5.PS1.1
A. A Solid
- Q. What states of matter assume the shape of their container? 5.PS1.1
A. Gas and Liquid
- Q. What happens when heat is transferred through air or water by a hotter material moving into a cooler place? 6.PS3.4
A. Convection (CON-VECK-SHUN)
- Q. What is the relationship in which both organisms benefits from the reallationship? 6.LS2.2
A. Mutualism (Pronounced MUE-CHEW-UL-IZM)

- Q. What is the term for the planned management of a natural resource? 6.ESS3.1
A. Conservation (CON-SUR-VAY-SHUN)
- Q. What is defined as the biological interaction of one animal eating another? 6.LS2.2
A. Predation
- Q. What is defined as a biological interaction where both organisms or species are harmed? 6.LS2.2
A. Competition
- Q. What does it mean for an animal to be at the top of the food chain? 6.LS2.2
A. No other animal in the ecosystem preys on it. (Would also accept Apex Predator)
- Q. What is a biological community of interacting organisms? 6.LS2.2
A. An ecosystem
- Q. What is the main reason an organism in an ecosystem becomes over populated? 6.LS2.2
A. Lack of Predation
- Q. What animal is considered to be the apex predator on earth? 6.LS2.2
A. Man
- Q. What is the term for an animal which sits at the top of the food chain? 6.LS2.2
A. Apex Predator
- Q. The Rainforest in Brazil would be an example of what type of Biome? 6.LS2.4
A. Terrestrial
- Q. What is the relationship in which one organism benefits from the relationship while the other is neither harmed or benefited? 6.LS2.2
A. Commensalism (Pronounced CUH-MINCE-UH-LIZM)
- Q. Oxygen is an example of what type of natural resource? 6.ESS3.1
A. Renewable
- Q. How would you describe the relationship between a tick and a dog? 6.LS2.2
A. Parasitism (Pronounced PARA- SIT-IZM)
- Q. A remora cleaning the surface of a shark while benefiting from the protection of the shark could be described as what kind of relationship? 6.LS2.2
A. Mutualism (Pronounced MUE-CHEW-UL-IZM)
- Q. A flea that lives on a dog would be considered to be what? 6.LS2.2
A. A parasite
- Q. What is another term for Mutulism? 6.LS2.2
A. Symbiotic (Pronounced SIM-BY-AH-TIC)
- Q. What is an organism which breaks down dead or decaying organisms? 6.LS2.3
A. A decomposer

- Q. Name the three types of organisms found in any biological community? 6.LS2.3
A. Consumer, Producer, Decomposer
- Q. What is defined as a community of plants and animals that have common characteristics for the environment they exist in? 6.LS2.4
A. A Biome
- Q. An ecological area inhabited by a particular species of animal or plant is said to be its what? 6.LS2.4
A. Habitat
- Q. What is the relationship in which one organism benefits from the relationship while the other is harmed? 6.LS2.2
A. Parasitism (Pronounced PARA- SIT-IZM)
- Q. What state of matter does not flow easily? 5.PS1.1
A. A Solid
- Q. What state of matter would you have if all of the atoms vibrate and move about, and slide past each other? 5.PS1.1
A. A Liquid
- Q. In terms of what they eat, a humans would be classified as what? 4.LS2.2
A. Omnivores (pronounced OM-NUH-VOORS)
- Q. In terms of an ecosystem what is a producer? 4.LS2.2
A. An organism which can produce its own food
- Q. What type of organism must consume materials generated by other organisms in order to survive? 4.LS2.2
A. Consumer
- Q. What is the term for the animal that is caught and eaten by another organism? 4.LS2.2
A. Prey
- Q. What is the term for the animal that catches and eats another animal? 4.LS2.2
A. Predator
- Q. What is an organism which lives in or on another organism and benefits at the hosts expense? 4.LS2.2
A. Parasite
- Q. An organism which is attacked in some way by a parasite is known as a what? 4.LS2.2
A. A Host
- Q. Stored energy in an object because of its position is known as what? 4.PS3.2
A. Potential Energy
- Q. What is the energy possessed by a body by virtue of its movement? 4.PS3.2
A. Kinetic Energy
- Q. A coiled spring would be an example of what kind of energy? 4.PS3.2
A. Potential Energy

- Q. A basketball passing through a hoop is an example of what kind of energy? 4.PS3.2
A. Kinetic Energy
- Q. Water behind a dam is an example of what kind of energy? 4.PS3.2
A. Potential Energy
- Q. A fast car moving down the road is an example of what kind of energy? 4.PS3.2
A. Kinetic Energy
- Q. What state of matter would you have if all of the atoms vibrate and move freely at high speeds? 5.PS1.1
A. A Gas
- Q. What state of matter can be easily compressed? 5.PS1.1
A. A Gas
- Q. Stored energy in an object because of its position is known as what? 4.PS3.2
A. Potential Energy
- Q. What state of matter would you have if all of the atoms vibrate but generally do not move from place to place? 5.PS1.1
A. A Solid
- Q. What state of matter would you have if all of the atoms are close together with no regular arrangement? 5.PS1.1
A. A Liquid
- Q. In which state of matter are particles widely separated and arranged randomly? 5.PS1.1
A. A Gas
- Q. What Law states that energy cannot be created or destroyed, but only transformed from one form to another? 4.PS3.3
A. Law of Conservation of Energy
- Q. A fast car moving down the road is an example of what kind of energy? 4.PS3.2
A. Kinetic Energy
- Q. Water behind a dam is an example of what kind of energy? 4.PS3.2
A. Potential Energy
- Q. What is the energy possessed by a body by virtue of its movement? 4.PS3.2
A. Kinetic Energy
- Q. A basketball passing through a hoop is an example of what kind of energy? 4.PS3.2
A. Kinetic Energy
- Q. What Law states that energy cannot be created or destroyed, but only transformed from one form to another? 4.PS3.3
A. Law of Conservation of Energy

- Q. A coiled spring would be an example of what kind of energy?
- A. Potential Energy

4.PS3.2
